Skip's Morning Smile

Wisely the managers of the Lynchburg and Norfolk quints have decided
to play off the tie in the State basketball championship series on the Howtzers floor. If the game had been
played in the home city of either team,
some reom for talk would have been
given if the locals won, and from the
way things have panned out this season it was best to avoid such a coningency. Local fans should show
their interest in the sport by turning
ant in full force to see the game. The
expenses of the teams will be large,
that while they are not looking for the
oit, it would not be fair to make them
ilig down into their pockets to play
tere.

Pat Powers was sent into forced retitement several years ago by the International League and it is to be hoped that his re-entry into baseball will not cause the lints much trouble.

Manager Jack Dunn says he has arranged with Connie and Muggsy, his two old side kicks, to turn over some good players to the Virginians. Dunnes has made a reputation for keeping his word, and he has been too long in the game to start not. Therefore local fairs can expect to see some more high leaguers with Richmond emblazoned across their breasts.

Your Attention, Mr. Citizen, Please!

Shall the voters be allowed to vote upon the question whether or not the Gas Works shall be leased to any one? The Southern Gas and Electric Corporation has filed a petition with the Common Council for the leasing of the Gas Works. There has been a general discussion of our offer.

Many Citizens Favor Our Proposal

Since the filing of our petition for the leasing of the Gas Works with the Common Council there has been a widespread discussion of our proposition.

It is more than favorably looked upon by many hundreds of the Citizens of the City of Richmond, who believe that the private operation of the Municipal Gas Works will not only insure a high quality of gas and a high standard of excellence in service, but that the City will benefit financially.

WHAT OUR OFFER MEANS

It means BETTER GAS, CHEAPER GAS, BETTER SER-VICE and plenty of LABOR FOR RICHMOND.

Our figures show that at least \$1,000,000 and probably more, will have to be expended by us to provide up-to-date mains and service pipes to provide the City of Richmond with a gas service that a city of 150,000 or 160,000 persons is entitled to, and this amount of money we are in a position to spend.

We Want to Encourage Manufacturing

To encourage manufacturers to locate in the City of Rich mond, we will agree, within one year to provide a sliding scale for large consumers of gas. This scale will provide a reduction from 80 cents a thousand cubic feet to 70 cents a thousand cubic feet, according to the quantity of gas used.

The rate to the City, for all gas used by it, shall be 75 cents a thousand cubic feet, from the time of the acceptance of the

What Our Offer Means to the Gas Consumer

IT MEANS 80 CENT GAS. IT MEANS BETTER SERVICE.

It means an expenditure of at least a HALF MILLION DOLLARS in the improvement of your service.

We are prepared to provide gas main and service pipes that will give you, the Citizens, better lighting and better cooking results.

We are further prepared to give a PRIVATE OPERATION of your Municipal Gas Plant that will compare more than favorably with that of any other City in the Country. Gas Lighting is recognized as being superior to any other lighting for reading, sewing or office work. Its reliability and superiority for cooking is recognized in every city where good service is rendered.

At the expiration of one (1) year from the commencement of the lease, we will make a net price for domestic consumption of eighty cents (80c.) per M. cubic feet and at least within ten (10) years, of seventy-five cents (75c.) per M. cubic feet, which price shall not, for the balance of the term of the lease, be exceeded.

Remember

The ownership of the Gas Works will not change, the Southern Gas and Electric Corporation having offered only to lease it or to operate it on a partnership basis. Municipal ownership, but private operation.
